Here and There

Soon it will be February. In late January, I took a walk around the center with snowshoes. I could see beautiful sceneries here and there with just one step into nature.

Asahidake Winter Event in session

On Sunday, January 9th, the seventh "Asahidake Winter Event" was held. On this day, a "Target hitting game" was held under the guidance of Hidekazu Shioya, who has been active as Daisetsuzan nature guide.

Mr. Shioya explained the history of hunting and how to throw it to the participants. This spear was made by him, and different types of woods were used.

Everyone learned so quick and they did a great job. Hunting in the past was the result of many people's wisdoms and efforts. We who live in modern society tend to get and consume easily. This event reminds us important lessons. Thank you to everyone who participated and Mr. Shioya.

Asahidake visitor center has been holding various winter events with the public parking lot as snow playground. If you need more information, please check the visitor center HP or FB.
