Climate of Asahidake onsen area in early April

- Temp : Max. 1°C/Min. -5°C (Avg. of 2012~22)
- Beware of sudden weather change and winter driving

Snow is melting faster than usual

During March, there was little snow and the temperature was high. The snow on the road has almost disappeared, and it's like a late April's scenery. Let 's compare this March' s temperature with the average temperatures from 2012 to 2022. The average lowest temperature is 3°C higher, and the average highest temperature is about 5°C higher, we could know that this year is warmer than usual.

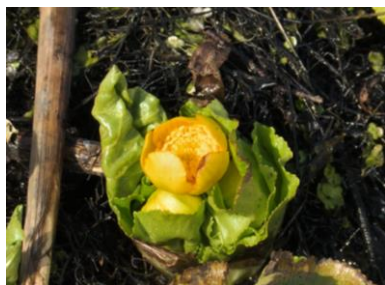

But there is possibility it gets cold at night, so please be careful of road freezing in the morning and evening.

Average temperature on March(°C)	Lowest	Highest
2012~22	-8.6	-2.0
2023	-5.1	3.0

Butterbur sprout

There were many warm days, so the snow melted quickly and the soil was exposed. Depending on weather conditions, you may be able to see plants as early as about 3 weeks.

Caltha palustris

Bud of Asian skunk cabbage
