* The appearance of Ice sculpture

The ice sculpture of a brown bear and an owl was completed in entrance of the visitor center at Jan 16th.

The two people in the picture are who created these special art works, they belong to the Ice Sculpture Association based in Higashikawa Town. We appreciate your works in extremely cold weather.

Let's take a picture

Asahidake under the clear sky

The picture was taken at Sugatami Station in Jan 12rd. It maybe the first clear day in Asahidake area on 2021. I walked by snowshoes with new staff from Thailand toward fumarole. I hope the weather always be clear like this.

The terrain between Sugatami station and fumarole area, is snow field with the gentle slope. Even if the weather and visibility are fine, it is easy to miss the destination depending on the location , so if you are first time to visit Asahidake, Please visit the visitor center and ask the staff about hazard information.

『Treasure hunt with a compass』

Our special event 「Treasure hunt with a compass」 was held at snow playground on Jan 17th.

The elementary school boy found the buried treasure using a compass in the snow playground. Thank you for participants and the instructor, Mr.Igawa.

The next event will be held
1/31 (Sun) 10: 00-12: 00
Participation fee is free.
