【 Nature Information 】

Long-tailed tit.

A subspecies of long-tailed tit found only in Hokkaido, Japan.

Also, It can be seen in Asahidake Onsen area.

They move quickly, so rather than looking for them directly, try to remember their bird calls first and then search for them. You may also see them near the visitor center.

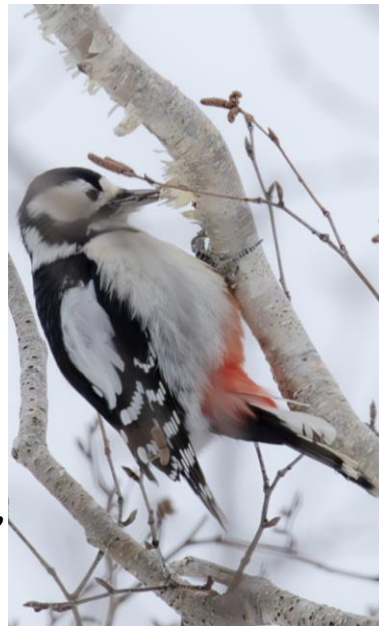

Great Spotted Woodpecker.

They peck at trees with their sharp bills, looking for insects in the bark.

Look in the direction from where you hear the sound of their sharp poking at trees to find them.

You can also see the great spotted woodpecker, which is slightly larger than the White-backed Woodpecker.

During the harsh winter months, Asahidake Onsen area is often covered with snow, but the ground can still be seen in some places. When you take a walk, please be careful not to step over or fall into the marsh area.
